

Protection and Insurance Planning

MAKE SURE YOUR FAMILY CAN PAY THE BILLS ... WHEN YOU CAN'T

**It's not a nice thing to think about but you might not always be healthy.
And if you're not, the first thing you and your family will miss is your income.**

If you're sick or have an accident you may need a replacement income until you get back to work.

If you suffer a critical illness you might never work again. A lump sum might pay off the mortgage.

if you die you wouldn't want your family to suffer financially as well as emotionally. Would you?

Let us work it out for you

If you are wondering how you and your family might cope without an income, stop wondering and let us work it out for you.

Decision

"Can You Afford To Pay For Insurance When You Have An Income?"

Or

"Can You Afford To Pay All Bills And Keep The House As Well As Maintain The Lifestyle.....
When You Have No Income?"
